

## Winston & Strawn's Product & Mass Torts Summit 2023

JUNE 14, 2023

### Staying Ahead in the Ever-Changing World of Product Liability and Mass Torts (AI, FRE 702, MDLs, and More)

Winston & Strawn is pleased to host its annual Product & Mass Torts Summit, streaming live on June 14, 2023. This virtual program will provide a unique opportunity to gain insights into the latest trends, challenges, and opportunities in the product liability and mass torts arena.

The Summit kicks off with an exploration of the novel legal challenges artificial intelligence is imposing on regulators and litigants, with insights from an industry pioneer. We move on to explore the current state of challenges to the admissibility of expert testimony under FRE 702, and then discuss major issues facing MDLs and strategies for success in large-scale litigation. In the Summit's final panel, some of Winston's leading trial lawyers offer thoughts about current developments and issues in national mass torts trials.

We are delighted to announce that the 2023 Summit faculty will include:

- Stuart Frankel, Former CEO and Chairman, Narrative Science
- Larissa Eustice, Senior Assistant General Counsel, Bayer US
- Basheer Ghorayeb, Managing Counsel, Toyota Motor North America

The Summit's sessions will examine the rapidly evolving legal landscape and strategies to keep you ahead of the curve, including:

- AI-n't That a Legal Dilemma: Product Liability, Fraud and Abuse, and Privacy Issues in the Age of AI
- FRE 702: Insights and Recent Developments
- Litigating in MDLs and Alternative Proceedings: Strengths and Weaknesses
- Mass Tort Trials 2023: Updates and Important Developments

[Listen to the presentations here.](#)

Following live streaming, programs will be made available for on-demand viewing to registered attendees in order to accommodate audiences in different time zones.

*Winston & Strawn LLP is an accredited CLE provider in California, Illinois, New York, and Texas.*
